

Student Academic Life Committee  
September

Present: Doug Ham, Leslie James, Nainita Shifa, Tom Ball, Mairianne Main, Jonathan Bonilla  
Jillianne Miranda

In the edge, Julia Sheelin proposed an agenda about behavior and intervention related to alcohol on campus. She proposed that the focus be on addressing high-risk behavior. The focus of the DePaul Collaborative is a campus-wide initiative. The agenda of the DePaul and the special national data camp included the following points: first, to provide information on the risk of drinking. The handout included a graph that illustrates the general decrease in alcohol consumption. While there has been an increase in binge drinking, there has been a decrease in the number of people who are drinking. We also have seen an increase in people calling and an overall decrease in the number of hospitalizations, which means that people are helping themselves in the intervention and alcohol-related areas.
